- Embedded software design/debug (Embedded C)
- Software integration (git)
- R&D for new technologies/hardware integration into existing products
- Board bring-up process for prototypes
- ARM/STM32 microcontrollers programming and debug
- GSM/GPRS Modem driver/application development
- GPS/GNSS Modem driver/application development (NMEA0183)
- BLE Modem driver/application development

Dextra Technologies • Testing Engineer

Guadalajara Area, Mexico (Jun 2014 - Nov 2015)

- Scripting in Python and Go for automated testing
- Automotive communication protocols testing (CAN, J1939, J1850, KWP2000, ISO-9141)
- Telematics products testing (GPS, GSM, CDMA)

Continental Automotive • Testing Trainee

Guadalajara Area, Mexico (May 2011 - Feb 2014)

- Testing for the Airbag Control Unit (ACU) and Seatbelt Reminder (SBR)
- Test automation in Python, NI LabVIEW, and Agilent TestExec
- Instrumentation of laboratory equipment using NI LabVIEW

Skills

Programming Languages

C, C++, Python, Go, Javascript, and Bash

Automotive

CAN, UDS, J1939, ISO 15765, RP1210B, DOORS, Vector CANoe, ASPICE, MISRA-C

Embedded systems

ARM, STM32, ST CubeMX, UART, SPI, I2C, BLE, USB HID

Web and Cloud

MySQL, MongoDB, Docker, REST, JSON, HTTP, XML, HTML, Bootstrap, CSS

Project Management

Project life-cycle, Leadership, Cost Control, Time management, Effective communication
Reporting, Presentation skills, Scrum (Scrum Master, Product Owner), CMMI.

Certifications

Aug 2020	Leadership Academy - Luxoft
Jun 2019	English Certificate (C2 Proficient) - EF Standard English Test (SET)

Courses

May 2019	Grupo de estudio PMP®/CAPM® 1S2019 - PMI Jalisco Chapter
Apr 2019	Agile Projects Management - PMI Jalisco Chapter

Education

2017	B.S. in Electronics and Communications Engineering - Universidad de Guadalajara
2009	Technologist in Electronics and Communications - CETI Plantel Colomos

Languages

Spanish	Native
English	C2 Proficient (EFSET 78/100)
